

```
1 var pacientes = document.querySelectorAll(".paciente");
2
3 // pacientes.forEach(element => {
4 //     element.addEventListener("dblclick", function(){
5 //         this.remove(); /*element.remove();*/
6 //     });
7 // });
8
9 var tabela = document.querySelector("#tabela-pacientes");
10 tabela.addEventListener("dblclick", function(event){
11     let alvoDoEvento = event.target;
12     let paiDoAlvo = alvoDoEvento.parentNode;
13     paiDoAlvo.classList.add("fadeOut");
14
15     setTimeout(() => { paiDoAlvo.remove(); }, 500);
16 });
17
18
```
